Index to Volume XXVIII

Abbreviations:—'(P)' refers to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists or at other meetings or symposia. '(L)' refers to letters to the Editor.

A antigen on erythrocytes, immunoperoxidase technique for staining of, **594**

Abbreviations for names of enzymes of diagnostic importance, revised list of, **592**

Abortion, threatened, endocrine assessment of (P), **757**

ABRAMS, L. D. *See* INGLIS, T. C. M., BREEZE, G. R., *et al.*

Acetyltransferase enzyme method for assay of serum gentamicin levels, and comparison with other methods, **140**

Acid-base metabolism, systemic disturbances of, CSF potassium concentration during, **418**

ACOSTA, M. *See* MARSDEN, P., FACER, P., *et al.*

Adenoid cystic carcinoma of breast, prevalence, diagnostic criteria and histogenesis, **647**

Adrenal medullary hyperplasia, bilateral, as clinicopathological entity, **298**

Aerobic and anaerobic skin bacteria before and after skin-disinfection with chlorhexidine, experimental study of, **793**

—— sporing bacilli, isolation from tips of indwelling intravascular catheters, **146**

Agar culture and chromosome analysis of eosinophilic leukaemia, **956**

Agarose and dextran gel, elution patterns of rubella IgM, IgA and IgG antibodies from, **670**

Agglutination test using *Mycobacterium tuberculosis* H37Ra as antigen in serodiagnosis of tuberculosis, **850**

Agglutinin response in 40 cases of bacterial pneumonia, **453**

—— —— to bacterial infection in acute exacerbations of chronic bronchitis, **279**

AHMAD, S. *See* GHOSE, T., WOODBURY, J. F. L., *et al.*

AJWANI, K. D. *See* SAXENA, H., and AJWANI, K. D.

Albumin, serum, human, labelled with technetium in measurement of plasma volume (P), **756**

Alcoholic solutions and other agents for disinfection of surgeon's hands (P), **753**

Alcoholism and drug dependency, serum enzyme levels in, **414**

ALEXANDER, W. D. *See* MCLARTY, D. G., and ALEXANDER, W. D.

AL-JUMAILI, I. J.: Bacteriocine typing of *Proteus*, **784**

——: An evaluation of two methods of bacteriocine typing of organisms of the genus *Proteus*, **788**

Alkaline phosphatase, neutrophil, score in chronic granulocytic leukaemia, effects of splenectomy and anti-leukaemic drugs, **517**

ALLAIN, J. P. *See* MEYER, D., PLAS, A., *et al.*

ALLAN, A. G. E., WILSON, R., BRAYNION, P., PEPPER, D., and CASH, J. D.: A plastic bag system which facilitates the preparation and pooling of blood components, **837**

Alveolar cell carcinoma, case of, bronchorrhoea in, **60**

Anaemia, haemolytic, acute, due to IgM penicillin antibody in 3-year-old child after oral penicillin treatment, **321**

——, ——, of newborn, haemoglobin F Poole as cause of, **317**

——, megaloblastic, unusual (L), **1007**

——, ——, with multinucleate erythroblasts in 2 patients with septicaemia and acute renal failure, **324**

Anaemic crisis in sickle cell disease, **341**

Anaerobes, non-sporing, identification by antibiotic-impregnated disc tests, **388**

Anerobic and aerobic skin bacteria before and after skin-disinfection with chlorhexidine, experimental study of, **793**

—— bacteria, Gram-negative, comparison of *in vitro* activity of metronidazole, tinidazole and nimorazole against, **775**

—— blood cultures, experimental comparison of Thiol broth and Brewer's thioglycollate for, **407**

ANDERSON, G., and COUP, A. J.: Effect of decalcifying agents on the staining of *Mycobacterium tuberculosis*, **744**

ANDERSON, I. M. E. *See* STEWART, S. M., ANDERSON, I. M. E., *et al.*

ANDERSON, J. D.: Correction to error, **599**

——. *See also* SELLIN, M. A., GILLESPIE, W. A., *et al.*

ANDERSON, T. J. *See* JAFFRAY, D., and ANDERSON, T. J.

ANDREWS, T. *See* SLAVIN, G., WILLS, E. J., *et al.*

ANDREWS, T. M. *See* MCKERAN, R. O., SLAVIN, G., *et al.*

Angiotensin I, generated, semi-micro radioimmunoassay of, in measurement of plasma renin activity, **625**

ANTHONY, P. P., and JAMES, P. D.: Adenoid cystic carcinoma of the breast: prevalence, diagnostic criteria, and histogenesis, **647**

Antibiotic discs from different sources, comparison of, **779**

Antibiotic-impregnated disc tests for identification of non-sporing anaerobes, **388**

Antibiotics, disc zones, zone reader for recording of, **513**

——, mixtures in serum samples, resolution by high-voltage electrophoresis, **435**

——, sensitivity testing, comparison of tablets and paper discs for, **983**

——, synergism in, demonstration of, test for, **1005**

Antibodies, Brucella, detection in serum, modified anti-globulin consumption test as screening method for, **50**

——, IgM, specific, detection of, after infection with rubella virus, **377**

——, rubella IgM, IgA and IgG, elution patterns from dextran and agarose gel, **670**

Antibody, IgM, to measles, canine distemper and rinderpest viruses in sera in subacute sclerosing panencephalitis, **543**

——, ——, to penicillin, acute haemolytic anaemia in 3-year-old child due to, after oral penicillin treatment, **321**

—— titres in glandular and ocular toxoplasmosis determined by various serological methods, relationship and significance of, **42**

Anticoagulant activity of heparin in intravenous fluids, **494**

—— therapy, oral, long-term, efficacy and laboratory assessment of, **198**

Antifungal drugs, laboratory tests of, **767**

Antigen A, on erythrocytes, immunoperoxidase technique for staining of, **594**

——, factor VIII related, and factor VIII clotting activity in normal women, effect of oral contraceptives, **498**

——, hepatitis B (Australia). *See* Hepatitis B antigen

——, pneumococcal, in lobar pneumonia, **118**

Antiglobulin consumption test, modified, as screening method for detection of Brucella antibodies in serum, **50**

Antileukaemic drugs, effect on neutrophil alkaline phosphatase score in chronic granulocytic leukaemia, **517**

Antimicrobial drugs, minimum inhibitory concentrations of,

determination by paper diffusion method, **989**
Antisera, commercial, for capsular typing of *Klebsiella* species, titres and cross reactions of, **33**
α_1-Antitrypsin deficiency, adult, **613**
—— in paraffin embedded liver tissue, immunofluorescent detection of, **717**
—— phenotype, relationship to liver disease in infancy, **559**
AROCHA-PIÑANGO, C. L. *See* INGRAM, G. I. C., KNIGHTS, S. F., *et al.*
Arthritis patients, synovial cells and autologous lymphocytes and sera from, interaction *in vitro* between, **550**
——, rheumatoid, and other joint diseases, immunopathological changes in, **109**
Aschoff bodies, origin of, after myocardial lysis in acute rheumatic fever, **568**
Association of Clinical Biochemists: Reports and Bulletins, **41, 139, 224, 406, 501, 593, 749, 774**
Association of Clinical Pathologists: Data-processing, **689**
—— —— —— ——: 94th General Meeting, **753**
Australia antigen. *See* Hepatitis B antigen
Autoanalyser, 8/9-channel, mechanized blood grouping with, hospital trial of, **860**
Autoclaves, laboratory, cooling in, **664**
——, ——, dangers and safety measures with (P), **754**
AXT, R. *See* VISSER, J. W., and AXT, R.
AYLIFFE, G. A. J. *See* LOWBURY, E. J. L., and AYLIFFE, G. A. J.
——. *See* PRINCE, J., DEVERILL, C. E. A., *et al.*
AZZOPARDI, J. G., and LAURINI, R.: Inverted follicular keratosis, **465**
——. *See also* GAD, A., and AZZOPARDI, J. G.

Bacilli, aerobic sporing, isolation from tips of indwelling intravascular catheters, **146**
Bacteria, anaerobic and aerobic, of skin before and after skin-disinfection with chlorhexidine, experimental study of, **793**
——, ——, Gram-negative, comparison of *in vitro* activity of metronidazole, tinidazole and nimorazole against, **775**
——, nomenclature of, **746**
—— of lower genital tract during pregnancy, relationship to morbidity, **731**
——, relationship to cell migration through gastric epithelium, **639**
Bacterial cultures, incubation in predetermined concentrations of carbon dioxide, method for, **337**
—— enzymes, identification of, method for, **686**
—— infection in acute exacerbations of chronic bronchitis, agglutinin response to, **279**
—— pneumonia, agglutinin response in 40 cases of, **453**
Bacteriocine typing of *Proteus* isolates, **784**
—— —— —— —— ——, evaluation of two methods for, **788**
—— —— of *Proteus mirabilis*, comparison of different media for, **25**
Bacteriocinogeny in *Neisseria gonorrhoeae*, reevaluation of, **274**
Bacteriology reports, production of, use of computer for, **580**
Bacteroides fragilis, effect on erythrocyte membrane and pathogenesis of Tk polyagglutination, **964**
BAILIE, A. G. *See* SPIERS, A. S. D., LIEW, A., *et al.*
BAKER, S. R. *See* SEJENY, S. A., EASTHAM, R. D., *et al.*
BAREFORD, D. *See* WHICHER, J. T., and BAREFORD, D.
BARNES, S., GALLO, G. A., TRASH, D. B., and MORRIS, J. S.: Diagnostic value of serum bile acid estimations in liver disease, **506**
BARNICOAT, M. *See* SHANSON, D. C., and BARNICOAT, M.
BARON, D. N., BROUGHTON, P. M. G., COHEN, M., LANSLEY, T. S., LEWIS, S. M., and SHINTON, N. K.: Problems in the introduction of SI units (L), **164**
——, MOSS, D. W., WALKER, P. G., and WILKINSON, J. H.: Revised list of abbreviations for names of enzymes of diagnostic importance, **592**
——. *See also* LEVIN, G. E., and BARON, D. N.
BARR, A., DOW, B. C., WATSON, W. C., and HUNTER, E.: Detection and quantitation of tetanus antitoxin in blood donations, **969**
BEAL, R. W., and MERRY, D. J.: The VDRL test in a blood transfusion service, **854**
BECK, J. S. *See* BROWN, R. A. G., FAWKES, R. S., *et al.*
——. *See* MACDONALD, M., MCCATHIE, M., *et al.*
——. *See* YOUNG, R. J., BECK, J. S., *et al.*
BEGENT, R. H. J. *See* WHITESIDE, J. D., and BEGENT, R. H. J.
BELL, E. J., ROSS, C. A. C., and GRIST, N. R.: ECHO 9 infection in pregnant women with suspected rubella, **267**
BENSTEAD, J. G. *See* HOLT, D. W., and BENSTEAD, J. G.
BENTLEY, S. A. *See* MARSHALL, P. N., BENTLEY, S. A., *et al.*
BENTLEY, S. J., EASTHAM, R. D., and LANE, R. F.: Oral butter fat test meal with serum nephelometry in suspected fat malabsorption, **80**
BERRY, C. L.: Thrombolytic therapy and myocardial infarction, **352**
BESSER, G. M. *See* LANDON, J., and BESSER, G. M.
BEVINGTON, J. M. *See* LAWRENCE, A. C. K., BEVINGTON, J. M., *et al.*
Bile acids, estimations in serum in liver disease, diagnostic value of, **506**
Biopsy, jejunal, computer card morphometry of, in childhood coeliac disease, **85**
——, liver, hepatitis B antigen in paraffin sections of, orcein staining of, **66**
—— specimens from fibreoptic endoscopy, quantitation of G-cells in, and serum gastrin levels in normal subjects, **636**
BIRD, G. W. G., MCEVOY, M. W., and WINGHAM, J.: Acute haemolytic anaemia due to IgM penicillin antibody in a 3-year-old child: a sequel to oral penicillin, **321**
——, ROBERTS, K. D., and WINGHAM, J.: Change of blood group from A_2 to A_X in a child with congenital abnormalities, **962**
——. *See also* INGLIS, G., BIRD, G. W. G., *et al.*
——. *See also* MANN, J. R., COTTER, K. P., *et al.*
BISHOP, R. F. *See* DAVIDSON, G. P., GOLLER, I., *et al.*
BISSON, M. *See* DAVIES, S., GLYNNE-JONES, E., *et al.*
BISSON, P. *See* DAVIES, S., GLYNNE-JONES, E., *et al.*
BISWAS, B., and FINBOW, J. A. H.: Quantitative study of uterine curettage in the menstrual cycle, **905**
BLACK, W. A.: A practical system of bacterial nomenclature, **746**
BLADES, M., DE LOUVOIS, J., HARRISON, R. F., and HURLEY, R.: Mycoplasma, doxycycline, and human infertility (P), **756**
BLAKE, J. *See* MORLEY, A., and BLAKE, J.
Bladder, urinary, in children, ultrastructural study of, correlation with histological, bacteriological and clinical findings, **176**
BLEWITT, R. E.: A new method for the assay of factor XI in plasma and the preparation and use of a new artificial substrate, **332**
Blood cell counting machines. *See* Coulter counter
—— clotting activity of factor VIII and factor VIII related antigen in normal women, effect of oral contraceptives, **498**
—— —— factor defects, isolated, screening tests for diagnosis of, with special reference to 'contact factor' defects, **524**
—— coagulation, effect of natural oestrogens, trial of (P), **757**
—— ——, intravascular, excess, complicating low cardiac output, **1**
—— ——, ——, in nervous system (P), **753**
—— —— tests, preparation of 'contact product' as reagent for, **596**

—— coagulation/lysis systems, activation of, and cryofibrinogenaemia in accidental hypothermia of elderly (P), **758**
—— components, preparation and pooling of, plastic bag system for facilitation of, **837**
—— corpuscles, measurement of mean corpuscular volume by Coulter S, influence of extraneous factors on, **12**
—— cultures, anaerobic, experimental comparison of Thiol broth and Brewer's thioglycollate for, **407**
—— ——, contamination in laboratory, **980**
—— donors, detection and quantitation of tetanus antitoxin in, **969**
—— group change from A_2 to A_X in child with congenital abnormalities, **962**
—— grouping, mechanized, with 8/9-channel autoanalyser, hospital trial of, **860**
—— platelet aggregability in relation to impaired consciousness after head injury, **814**
—— —— counts during normal pregnancy, **812**
——, storage of, effect on mean corpuscular volume, **345**
—— transfusion service, VDRL test in, survey of results of, **854**
BOLD, A. M., and BROWNING, D. M.: Quality control of thyroid function tests *in vitro*, **234**
——, HOFFENBERG, R., LONDON, D. R., WHITEHEAD, T. P., and WILDING, P.: SI units (L), **164**
Bone collagen in Paget's disease, crosslink in, **305**
—— disease, staphylococcal and tuberculous, differentiation of, serological tests in, **284**
—— marrow hypocellularity, histological assessment of, observer error in, **104**
